Abstract

This project is a Basic Web Portfolio designed using HTML, CSS, and JavaScript. It serves as a personal website to showcase an individual's profile, projects, and contact information. The website includes smooth navigation and a responsive design that enhances user experience. It provides a practical demonstration of front-end development skills.

Introduction

- A portfolio website is a digital resume that highlights an individual's professional skills and projects.
- This project helps create an online presence and showcases technical capabilities.
- Developed using HTML for structure, CSS for styling, and JavaScript for smooth scrolling.

Objectives

- To create a simple, responsive, and attractive personal web portfolio.
- To provide clear navigation to sections like About, Projects, and Contact.
- To demonstrate knowledge of front-end web development technologies.
- To enable smooth scrolling using JavaScript for a better user experience.

Project 2: Basic Web Portfolio

- Purpose: Showcase personal projects and contact info
- Technologies: HTML, CSS, JavaScript
- Sections: Home, About, Projects, Contact
- **Description:** A personal website with sections like Home, About, Projects & Contact.

Web Portfolio - HTML Structure

```
<header>
<h1>Kavya</h1>
<nav>
 <a href="#about">About</a>
 <a href="#projects">Projects</a>
 <a href="#contact">Contact</a>
</nav>
</header>
<section id="about">
<h2>About Me</h2>
Hello! I'm Kavya, an aspiring developer with a passion for web and software
technologies.
</section>
```

```
<section id="projects">
 <h2>Projects</h2>
 <strong>Student Record System</strong> – A Python-based CLI app for managing
student data
 <strong>Web Portfolio</strong> - This responsive site showcasing my work
</section>
 <section id="contact">
  <h2>Contact</h2>
  Email: kavya@example.com
 </section>
```

```
<footer>
© 2025 Kavya's Portfolio
</footer>
CSS:
body {
font-family: Arial, sans-serif;
margin: 0;
background-color: #f8f9fa;
color: #333;
header {
background-color: #007acc;
color: white;
padding: 1rem;
display: flex;
justify-content: space-between;
align-items: center;
```

```
nav a {
color: white;
text-decoration: none;
   margin: 0 1rem;
  section {
   padding: 2rem;
footer {
 background-color: #222;
 color: white;
 text-align: center;
 padding: 1rem;
```

```
JavaScript:
document.querySelectorAll("a[href^="#"]").forEach(link => {
    link.addEventListener("click", function(e) {
        e.preventDefault();
        const target = document.querySelector(this.getAttribute("href"));
        if (target) {
            target.scrollIntoView({ behavior: "smooth" });
        }
    });
}
```

OUTPUT

Advantages

- Easy to maintain and update.
- Improves online visibility and professional branding.
- Fully responsive and compatible with modern browsers.
- Smooth navigation enhances user interaction.
- Minimalistic design ensures fast loading.

Applications

- Personal Branding
- Showcasing Projects and Skills
- Can be used by freelancers, developers, designers, and students.
- Serves as an online resume to share with potential employers.

Challenges Faced:

- Designing a layout that is both visually appealing and functional.
- Ensuring the website is fully responsive on different screen sizes.
- Implementing smooth scrolling behavior using JavaScript.
- Managing consistent color schemes and typography for better readability.

Summary

- Created a responsive personal web portfolio using HTML, CSS, and JavaScript.
- Features smooth scrolling and a clear section-based layout.
- Provides a foundation to further enhance with animations, more projects, and backend integration if needed.

THANK YOU!
